Applicant Details

Name:	
Organisation:	
Address:	
Phone:	
Email:	

Applicant Type

Is the applicant an individual or a community organisation or a not for profit organisation?	Yes/No
--	--------

AED Location

What are the characteristics of the region that the AED would be located in?

- Consider the prevalence of available AEDs in the area/community?
- Consider the risk rating of the area/community in regards to likelihood of cardiac arrest?

Accessibility and Availability of the AED

How accessible and available is the AED to the public?

- Days and times of day
- Physical location
- Applicant strategies to maximise accessibility of the AED to the target community?

Maintaining the AED

Is the applicant prepared and able to maintain the AED, including meeting the cost of replacing the batteries and pads as required?

Is the applicant and two other members of the organisation prepared to undergo AED e-training?

Early Access to Defibrillation Program

Is the applicant prepared to register the AED with Ambulance Tasmania’s Early Access to Defibrillation Program?

Are the applicant and other relevant members of the organisation prepared to respond to cardiac arrest as part of the Ambulance Tasmania Early Access to Defibrillation Program?
